🌐 Personal Blog 🎓 Verified Credential

PROFESSIONAL SUMMARY

Recent graduate with a Bachelor's in English Education and practical technical training from **DataRockie Data Science Bootcamp (Batch 12 – Scholarship Recipient, Top 20% Rank)**. Fluent in **English communication** (verbal and written) with native and international speakers, with a solid practical foundation in **SQL database querying** and actively developing scripting skills in **Python and Bash**. Highly disciplined, patient, and motivated by a strong family background in IT to excel in an entry-level L1 Support role, delivering dependable 100% remote coverage for global SaaS users in the Thailand/APAC timezone.

SKILLS & COMPETENCIES

Languages: Thai (Native), English (Fluent – verbal communication, technical reading, and professional customer writing).

Databases & Querying: SQL (Foundational & Intermediate: `SELECT`, `WHERE`, `JOIN`, `GROUP BY`, data filtering, sorting, diagnosing database record discrepancies).

Scripting & Command Line: Python & Bash (Actively Learning / Foundational: script syntax, basic terminal navigation, log file inspection, running automation commands).

Tools & Software: Spreadsheets (Google Sheets & Excel formulas), Microsoft Office (Word, PowerPoint), Git (version control basics), Canva.

Support & Soft Skills: Active Listening, Problem Diagnosis, Clear & Patient Explanations, High Workload / Ticket Queue Stamina, Coachable & Fast Learner, 100% Remote Work Discipline.

TECHNICAL TRAINING & CERTIFICATIONS

Data Science Bootcamp (Batch 12) – Full Scholarship Recipient (Top 20% Mastered) 2023 – 2026

The School of Generalist / DataRockie | Instructor: Kasidis Satangmongkol | Verified ID: 560b1fe0-3a78-490f-8188-3077e2c890c9

- Awarded competitive scholarship for 100+ hours of hands-on technical training covering SQL databases, Spreadsheets, data transformation, and programming basics. Ranked Top 20% across 240 assessment questions.
- Wrote SQL queries on relational databases to extract, filter, and inspect customer and transaction data records.
- Actively continuing self-study in Python and Bash scripting to automate repetitive tasks and navigate Unix command-line environments.

Official Technical Certifications:

- **Certificate of Completion: SQL Crash Course** – DataRockie School (Cert No: `cert_650yhcyI`)
- **Certificate of Completion: Google Sheets Crash Course** – DataRockie School (Cert No: `cert_0z932crs`)
- **Certificate of Completion: R Crash Course** – DataRockie School (Cert No: `cert_z8cpdfsm`)
- **Advanced Microsoft Word Certification (18 Hours)** – Witayaput School (Cert No: 5714735)
- **Microsoft PowerPoint Presentation Course** – Satun Provincial Administrative Organization
- **Volunteer Appreciation Recognition** – Awarded by U.S. Embassy Bangkok (American Corner Yala)
- **Basic Teaching License** – Ministry of Education, Thailand

TECHNICAL PROJECTS & CASE STUDIES

Relational Database SQL Triage (Chinook Project)

View Notion Case Study ↗

- Wrote complex multi-table SQL queries joining up to 5 relational tables (`customers`, `invoices`, `employees`, `tracks`, `genres`).
- Mapped customer accounts directly to assigned support representatives via `SupportRepId` to inspect account status and spending patterns.
- Executed data filtering (`WHERE`, `IN`, `LIKE`), grouping (`GROUP BY`), and aggregations (`SUM`, `COUNT`) to troubleshoot business records.

Regex Text Parser & Date Normalizer

View Notion Case Study ↗

- Engineered text parsing workflows using Regular Expressions (`REGEXEXTRACT`, `REGEXMATCH`, `REGEXREPLACE`) to parse unstructured strings into structured fields.
- Formulated date normalization logic, converting non-standard Thai Buddhist Era dates into international ISO standard date formats.

Dynamic Query & Boolean Filtering System

View Notion Case Study ↗

- Built dynamic database queries with parameter controls, enforcing boolean logic operator precedence (`(A OR B) AND C`) for accurate record retrieval.

Technical Storytelling & Data Blog

nurlailatahawan.wordpress.com ↗

- Documented personal technical journey, SQL data models, and reproducible data workflows using R Markdown and WordPress.

WORK & LEADERSHIP EXPERIENCE

English Teacher & Program Coordinator

Dec 2023 – Present

Darul Ma'arif Foundation & Educational Institutions, Thailand

- Communicate daily in English, teaching presentation skills, communication, and basic grammar to secondary students.
- Tracked and evaluated student progress data to identify learning gaps and adjust coaching methods.
- Coached students to win 2nd Runner-up (Gold Medal) in English Crossword and 5th Place (Gold Medal) in Storytelling at provincial competitions.
- Handled day-to-day administrative coordination, scheduling, and direct problem-solving with teachers, students, and parents.

Vice President & Committee Member

Mar 2022 – May 2023

YRU Archery Club, Yala, Thailand

- Translated complex tournament rules and safety guidelines from Thai to English for international athletes during "Archery in the Garden 2022".
- Handled administrative records, participant coordination, and event logistics under tight schedules.

Volunteer & Community Coordinator

2020 – 2024

American Corner Yala & Various Organizations

- Supported cross-cultural English activities and community sessions; awarded Volunteer Appreciation Certificate by the U.S. Embassy Bangkok.
- Assisted in organizing online youth workshops, managing video calls, and resolving participant connection issues.

EDUCATION

Bachelor of Education in English

2020 – 2024

Yala Rajabhat University, Thailand

Science & Mathematics Program

2017 – 2019

Pathanawittaya School, Thailand
